

Starter quiz for secondary students

Dear Teacher,

Thank you for taking the time to engage your students with Sightsavers' starter quiz. Ideally this quiz should be photocopied and distributed to your students before teaching commences about Sightsavers work. By completing this quiz, you will be helping us to track student's baseline knowledge of the issue of avoidable blindness in developing countries.

Once students have completed the quiz, I would ask teachers to keep these on file and inform myself via email schools@sightsavers.ie. All responses will remain anonymous. All time taken to complete this quiz is valued and very much appreciated.

Roisin Cronin
Sightsavers Schools Coordinator
